## **What's for Dinner?**

How many times a week do you wonder about the answer to this question?

- Would you like to enjoy home cooked meals without the work?
- Is your schedule so hectic you don't have time to meal plan, grocery shop or cook?
- Are you following a specific eating plan? (e.g. South Beach, Low Carb, Low Fat, Weight Watchers)
- Are you unable to cook because of an illness, injury or a new baby?
- Are you eating fast food or take-out regularly?

If you answered yes to any of these questions, then a Personal Chef could be right for you!

## **How the Service Works...**

~ **Initial Consultation** - I will meet with you in the convenience of your own home to learn about you and your family's food preferences, as well as any special dietary needs. We will go through a food questionnaire that will help me to develop a personal portfolio customized for you and your family.

~ **Menu Planning and Approval** - You will choose your customized menu from a large variety of choices. You make the meal choices as well as specify quantities to be prepared.

~ **Grocery Shopping** - On your cooking date I shop for the freshest and finest ingredients, just before coming to your home to prepare your meals

~ **In-Home Meal Preparation and Cleanup** - Using my equipment and yours (cookware, knives, etc.), I will prepare your food and store it in labeled containers in the refrigerator and freezer. I will leave your kitchen completely clean, and your house filled with the aromas of your freshly cooked meals.

~ **Enjoyment** - Using the detailed reheating and serving directions that I provide you, just reheat, serve, and enjoy.

## Who uses a Personal Chef Service?
